Double breasted arrangements are extremes; but it should be easy to eminently desirable for winter motoring, one to find a becoming motor has and coats cut so that the right side but. this season tons across the left quite to the throat tons across the left quite to the throat shapes in Austrian velours, pulled down over the head, the unstiffenest

SEAL AND SKUNK.

and yet turns down in big revers when the warmth is not desirable, are very satisfactory.

The detachable leather lining, which is popular in England, has never had the success it deserves here. A coat ligid in this way is proof against cold and wet, and by the removal of the lining the cloth coat may be made comfortable for use in mild weather. A soft pliable leather quilted upon light weight wool cloth is an especially good version of this leather lining.

Leather trimming, more particularly suade, is much used, hats of suede to match the coat trimming being one of the fashionable things in motor milinery.

The fashion of the "Hennin" of early French days is made up by Carlier in beaver and in seal and a shape somewhat similar but more like a monk s cowl is another. French innovation (cossar caps of fur and shapes like the one sketched here, with slightly fulled huse crown and narrow drooping brim all we fur are numerous, though with the full fur crown one more often sees the brix of felt, beaver or felt in motor millinery, being most often used next the face, while the crown is of the lighter matterial a count but the face of the sable for used in mild weather. A soft pliable leather quilted upon light weight wool cloth is an especially good version of this leather lining.

Leather trimming, more particularly suade, is much used, hats of suede to match the coat trimming being one of the fashionable things in motor milinery.

A bonnet of mole color leather has a small crown slightly full and covering the hair and ears, and around the face with high the content of the sable, being of a soft chestral brown, which veiled the blue of the bonnet crown slightly full and covering the hair and ears, and around the face with the sides and ends over the ears under the sable, being of a soft chestral brown, which veiled the blue of the bonnet crown slightly full and covering the hair and ears, and around the face with the finity of the sable, being of a soft chestral brown which veiled the blue of the b
